F55R

Fitch, Asa, 1809-1878. Reports on the noxious, beneficial and other insects ... 1856-67. (Card 5)
Appended to the 4th report is a reproduction of a rare tract: "Description of new species of heteropterous Hemiptera of North America, by Thomas Say. New Harmony, Indiana. December, 1831." Of this publication only two copies were known to be extant; it was here republished from a transcript made for Dr. Fitch from one of these copies.
Entomological reports were resumed in 1882 by the state entomologist. A full bibliography of Dr. Fitch's entomological work is given in the "First annual report on the injurious and other insects of the state of New York ... By J. A. Lintner, state entomologist. 1882." p. 299-325. cf. also "Index of economic material in documents of the states of the United States. New York, 1789-1904 ... By Adelaide R. Hassel. 1907." p. 28, 34.

List of members in each report.
The 27th report, 1922, includes a brief history of the society from its
foundation.
The scientific publications of the society appeared first in a series of
papers in the Annual reports between the years 1897 and 1907. Then, as
they became more important, they were published in the bulletins consti-
tuting the volumes of Zoologica. --27th report, p. xxi.

Contents. - 1. You must balance your diet if you want to be well. - 2a. Those teeth demolishers! - 3. You need more milk! - 4. Look after your teeth! - 5. Take your lunch seriously! - 6a. You need vitamin A, so make room for carrots! - 7. Anaemia? You are only as healthy as your blood. - 7a. Salad days are here again! -
For nos. in library see shelf-lln

389.1
N4895 2.
8a. Milk. See that it is pasteurised. - 9a. Flies carry the germs of typhoid fever, dysentery, summer sickness and worms. - 10. In skim milk, this has gone: cream and fat soluble vitamins; but this remains; protein, lime, phosphorus and other minerals, also vitamin B. - 11a. You can't get good health out of a bottle. - 12. Flies; one cause of summer sickness! - 13. How to replace oranges and still get vitamin C to resist infection. - 13a. What does pasteurisation do to the food value of milk? - 14. Butter rationing! How to replace

389.1
N4895 3.
vitamin A. - 14a. From compost heap to your food comes the filthy fly. - 15a. What's all this fuss about vitamins? - 17. Kill every rat! - 18. The meat ration is adequate for good health! - 19. Goitre can be prevented! - 20. Harmful germs in milk. The only difference is pasteurisation! - 23. This winter, don't go short of vitamin D. - 25. Don't waste your vegetables.

New Zealand. Marketing Dept.

Commenced operations Aug. 1, 1936.

Name changed from Primary products marketing department by act of 1939 (see its Annual report 1939/40)

Until 1948, the Marketing Dept was made up of 3 divisions, namely, Internal Marketing, Export Marketing and Milk Marketing. The Marketing amendment act, 1948, abolished these 3 divisions and amalgamated them under the one head, Marketing Dept.

New Zealand. Marketing Dept.

Absorbed (1953?) by Dept. of Agriculture as Marketing Division. Functions handed over to producer boards (1955?)

280.3449 New Zealand. Marketing department.

The next five years; an essay in political agreement. London, Macmillan and co, limited, 1935.
xvi, 320 p. 22^{cm}.
"First edition July 1935. Reprinted September 1935."
"A year ago, many of us, drawn from different parties and schools of thought, joined in signing two manifestos defending the principles of political liberty and democracy and outlining a constructive policy. Since then, a representative group, consisting mainly of signatories of those manifestos, has considered in a series of meetings how the outline of the policy there sketched should be filled in. The present book has been written under the directions of this group."—Foreword.
